# Printing Rights for Card Design and Inside Message

If you already work with a printer and would like to purchase limited reproduction rights for one of our designs see the chart below. Prices are for printing a set number of cards for ministry and business use only, i.e. not for resale.

Quantity pricing is based on per year totals. So if you purchase three different designs over the course of the year with a total card count of 10,000 cards, then you will pay the 10,000 card rate on all cards or a total of \$3,200.

I will make all major edits before sending you the InDesign document. Your designer can then make any small updates and work with your printer to get them through production.

<b>Printing Rights</b>
